## BIG TIE DRIVE IS DEMING WOMEN HELD FOR STEADY RIVER FLOW HELD ON CHARGE OF ARSON

Santa Barbara Company Hold-ing 200,000 at Embudo Un-till Rio Grande Gets Settled. Small Drive this Year.

**(Special Dispatch to Evening Herald)**  
Santa Fe, N. M., May 18.—According to Forest Subdivision Don J. Johnson, who resided here today from Rio Arriba county, some 200,000 ties are being driven down the Rio Pueblo to Embudo by the Santa Barbara Tie and Pole company, where a boom will hold them back until settled flow returns in the Rio Grande and the tie will be safe from stranding.

The Santa Barbara company this season will only send down about 75,000 ties instead of the usual half million or more, there being a heavy stock on hand at the tie treating plant at Albuquerque.

## NO TRACE YET OF MISSING TABLE OR THE THIEF

Mystery Added to Burglary by Fact that High School was Entered by Booze Loving Burglars on Same Night.

**(Special Dispatch to Evening Herald)**  
Santa Fe, N. M., May 19.—Absolutely no clue has developed up to this time either as to the whereabouts of the \$1,000 mineral table stolen from the women's board of trade last week, or the thief who took it.

Further mystery has been added to the affair by the fact that the high school building was entered on the same night through a rear window. The thieves in the case held a house party in the building, leaving two dozen or more beer bottles and several empty whisky bottles on the floor.

Milliners Alleged to Have Caused Fire Which Destroyed Big Business Block; To Have Hearing Today.

**(Special Dispatch to The Herald)**  
Deming, N. M., May 19.—The case of the state against Mrs. Heath and Mrs. Crosswell, charging arson in connection with the big fire in Deming a week ago Sunday, came on for preliminary hearing before Justice of the Peace Rogers this morning. The hearing still is in progress. The witnesses thus far have been Sheriff Stephens, County Clerk Hughes, Landlord Nixon of the burned Victoria Hotel and representatives of local insurance men. A large crowd is in attendance.

**(Special Dispatch to The Herald)**  
Deming, N. M., May 18.—Mrs. C. H. Heath and Mrs. Margaret E. Crosswell, proprietors of the Heath millinery store, destroyed by the fire which swept out of existence one of the largest business blocks in Deming last Sunday morning, were arrested Sunday afternoon by Sheriff Dwight B. Stevens. The women are charged with arson. It is claimed that the fire started in the Heath store.

The complaint in the case is sworn to by Attorney Raymond B. Ryan of Silver City, who represents the Clark estate which owned most of the buildings destroyed. Mr. Ryan also represents the insurance companies which had issued policies on the property lost in the fire.

The fact of the arrest was kept secret for some time and when it became known created no little sensation in Deming. Mrs. Heath, one of the defendants, is the wife of Charles H. Heath, chairman of the county road board, while Mrs. Crosswell is well known and popular here. She is the daughter of Rev. J. B. Bruce, formerly pastor of one of the local churches.

The women will be given a preliminary hearing before Justice of the Peace C. C. Rogers on Tuesday morning at 10 o'clock. Attorney Ryan, who has been retained as special prosecutor by the Clark estate and the insurance companies, declares that the state will have at least a dozen witnesses to put on the stand, and the case promises to be one of the most sensational in the annals of Deming. Attorney J. S. Vaughn has been retained for the defense. Mean while the women are in liberty under each bond of \$1,000 each.

## BIG COLOMBO COUNTY CORPORATIONS FIGHT TAXES

\$354,000 Involved in Appeal to Supreme Court of Case Involving Authority of Equilization Board.

**(Special Dispatch to The Herald)**  
Santa Fe, N. M., May 19.—Assistant District Attorney Ira L. Grimes is engaged in preparing a brief in the case of a number of the large corporations controlling vast interests in Colfax county against the Collings county treasurer, brought to the state supreme court on appeal from the Colfax county court, and involving a total of tax money for the present year which the county holds due it on something like 1,000,000 acres of land.

The decision is of the utmost importance. A contrary ruling would throw out of court. It is said, a large number of judgments returned by the federal grand jury and greater lessen the scope of authority of the federal tribunal among the Indians. The government, which has been armed by the United States supreme court in the Sandoval decision with the authority to carry out vigorously the campaign against the Indian liquor traffic desired by the Indian department, considers it is understood that it has gained another important victory. The attorneys for San Juan Garcia denied the jurisdiction of the federal court, claiming that the alleged crime was one which should come before a district court of the state.

grazing land amounting to \$224,600. The corporations interested include the Maxwell Land Grant company, Charles Springer & Co., Rocky Mountain Coal company, St. Louis South Mountain and Pacific company, The Great Railroad company and in fact nearly all of the powerful group of corporations allied in the Maxwell Land Grant company and the Springer-Van Benten interests.

The companies in 1912 paid 40 cents an acre on some 1,000,000 acres of grazing land which the state board of equalization this year raised to 75 cents. The plaintiffs contend that by an act of 1909 power to change an assessment arbitrarily after it had been fixed by the board of county commissioners had been taken away from the state board of equalization.

The success of this case would upset all increases in grazing lands and other classes of property on which arbitrary rates were made by the state board this year.

HINES, ALA.—"I just confess," says Mrs. Edna Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continually.

Secretary of Agriculture Houston has called a conference of western sheepmen and wool manufacturers to meet in Washington in June to consider the adoption of the Australian system for preparing wool for market at its source. The action of Secretary Houston follows the persistent efforts of Mr. Cosgriff to obtain consideration for the Australian plan and which W. T. Ritchie, an Australian expert, is now at work explaining among western growers.

One thing is certain, the sheep growers don't know just how to take the market. As one fellow expressed it yesterday, sheep men of twenty-five years' experience don't know what way to jump.

Shearing began this week at the Turkett ranch and the Glasscock ranch.
